- CLI - Fluent In Linux command Line, BASH script
- Cloud Tech - Digital Ocean, Li node, AWS Code Commit, AWS RDS, AWS CodePipeline, AWS Elastic Beanstalk
- Others - Webpack, OAuth2, JWT, NGINX, API Gateway (KONG), Load balancer (HAProxy), Message Broker (RabbitMQ), ELK

PROFESSIONAL EXPERIENCE

MIAKI MEDIA LIMITED (Augmented Resource at Grameenphone)

DHAKA

SOFTWARE ENGINEER

MAY 2023 - PRESENT

PROJECT - MY GP APPLICATION (POL)

- Implementing diverse business requirements within the Payment Orchestration Layer
- Responsible for developing code that meets the requirements and specifications of the project. Writing code that is efficient, readable, and well-structured, as well as testing and debugging the code to ensure that it is free of errors and functions correctly
- Actively participating in team meetings and contributing to requirement analysis and refinement
- Utilizing Agile methodology for development

SOFTBD LTD.

DHAKA

SOFTWARE ENGINEER

JUN 2022 - APRIL 2023

PROJECT - Futurenation / <https://platform.futurenation.gov.bd>

- Contributed as a key member of a web application team, working in both frontend and backend development capacities.
- Actively participated in database design, architectural decisions, API design, and requirement analysis to ensure the successful delivery of high-quality software solutions.
- Lead a front-end application team, providing guidance in task distribution, conducting stand-up meetings, and making critical decisions for front-end application development.

TMSS ICT LTD.
SOFTWARE ENGINEER
OCT 2021 - MAY 2022

DHAKA

PROJECT - *StaffPay (Payroll Management System)*

- Designed and developed a cutting-edge Payroll Management System that achieved a 40% reduction in human workload and significantly decreased the possibility of human error.
- Played a pivotal role in the requirement analysis phase, ensuring that software development efforts adhered to the System Requirement Specification (SRS) for optimal project alignment.
- Took the initiative to identify and rectify existing bugs, thereby enhancing the overall stability and functionality of the web solution, contributing to a smoother user experience.

COLGIS BD LTD.
SOFTWARE PROGRAMMER
JAN 2020 - SEP 2021

DHAKA

PROJECT - *USAC (Warehouse Management System)*

- Collaborating closely with senior stakeholders to grasp business needs and effectively translate them into technical requirements.
- Executing the development of client-facing features in a full-time software engineering capacity.
- Engaging in research and crafting Proof of Concepts to support feature development initiatives.
- Designing and developing RESTful web services
- Deploying applications and providing post-production technical support

SKYLARK SOFT LTD.
JUNIOR SOFTWARE ENGINEER
FEB 2019 - DEC 2019

DHAKA

PROJECT - *goRMG (Garments ERP System), PATRON CRM*

- Writing, testing, and debugging code: Responsible for developing code that meets the requirements and specifications of the project. Writing code that is efficient, readable, and well-structured, as well as testing and debugging the code to ensure that it is error-free and functions correctly.
- Collaborating with team members: Collaborating with other engineers, project managers, and stakeholders to ensure that the project is progressing smoothly.

EDUCATION

DAFFODIL INTERNATIONAL UNIVERSITY

Dhaka

- **Master of Science in Software Engineering** **2022-2023**
- **Bachelor of Science in Computer Science and Engineering** **2014-2019**
